

"The strength of the team is each individual member. The strength of each member is the team." - Phil Jackson

Strong teams require a leader and members to:

- Build a foundation of trust
- Understand and leverage team members' strengths
- Create a vision of success and accountability for action

Team Development Programs

Three distinct programs that create engaged teams by building strong rapport, developing listening skills, communicating effectively and acting with integrity:

➤ **Leverage Team Strengths**

Gallup's StrengthsFinder 2.0 assessment (a simple on-line assessment tool) is used to identify and leverage team members' strengths and learn strategies to minimize weaknesses

➤ **Communicate with Impact**

A DiSC assessment is used to profile behavioral and communication styles of individual team members, to understand and respect style differences, and to build effective listening and communication skills

➤ **Vision to Venture**

Co-create an inspiring and shared vision with a fun and interactive activity that will strengthen alignment and prepare your team for action and accountability
